

Floor Standing Industrial Enclosures

IP 55 (IEC 529)

- Material
 - Body & Door – 2.0mm mild steel.
 - Plinth (black) – 2.0 to 3.0mm mild steel.
 - Mounting plate – 3.0mm galvanised steel.
- Surface finished with polyester powder coating RAL7032 texture, CVS beige colour.
- Complete with mounting plate (adjustable in depth).
- C-rails welded at both sides of internal body for mounting accessories.
- A continuous seal of polyurethane gasket at door provides high IP protection.
- Double folded gutter at door frame to increase rigidity and prevent water from entering while door is opened.
- Removable door rails ensure flexibility and rigidity.
- Single door is reversible for right or left opening.
- 3-point locking system.
- Optional items – eye bolt, plinth, canopy, inner door, transparent door, and fan/filter/rainhood.
